- Current bid amount for each item shows at the top right
- Click the Gavel Bid icon to increment by the standard dollar increment we have set
- Click the +Bid More icon and you'll have two additional bid options shown on the next page

- To bid a specific amount above the next increment, scroll to that amount and hit PLACE BID
- To set a max bid, select the amount you are willing to bid up to and then hit SET MAX BID. In this case the system will continue to bid in your favor if your current bid is outbid until either your max number is reached or the auction closes. Your bid will only increase above the next increment amount if you are outbid. If you are outbid on your max bid you will receive both a text notification and a message on your bidding home screen. This function is a great way to set the most you're willing to pay for an item and then not have to keep checking back to rebid.
